

# Start

## A Natural Adjuvant

**START** helps build a healthy soil by providing a complete nutrition program for soil microorganisms. Since an active healthy soil at germination is recognized by the seedling, **START** was formulated to facilitate the growth of beneficial microorganism that are part of the rhizosphere. When used as part of the *Cannabis Nutrition System Feeding Program* optimum genetic potential of your plants can be achieved.

### Ingredients:

A proprietary blend of Fulvic and Humic Acids, seaweed extract, amino acids, yucca extract, Maltodextrin carbohydrates, and chitin.
